## SUMEC Phono<sup>®</sup> Solar AUSTRALIA

# DIANOND DUAL CLASS BUILT TOUGH TO PERFORM

# IN AUSTRALIA

Black Anodised Aluminium Frame

Front: Heat strengthened Glass with Anti-Reflective Coating

Encapsulant POE

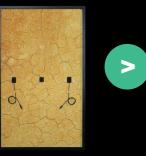

- High Efficiency
  Cells
- Encapsulant POE
- Back: Heat strengthened Glass

## WHY DUAL GLASS MATTERS

### LOWER GRADE, PLASTIC BACKSHEETS

Under harsh conditions, the plastic back sheet has been a common failure point of solar panels in Australia.

## DIAMOND GLASS

A second layer of tempered glass in replacement of the plastic back sheet allows **Zero Vapour Penetration**. This change and the addition of POE means you can install next to the coastline or in Australia's harshest climates.

## sumec Phono<sup>®</sup> Solar

# THE ENGINEERS' CHOICE

Working within Australia's harsh environment, Sumec Phono Solar manufacture a beautifully tough panel that's **simply different**.

 We continue to invest in our state-of-the-art, manufacturing line and are proud to introduce our latest Diamond Module Technology and leading Warranty to the Australian market.

President Zhao, Sumec Phono Solar

## BIFACIAL TECHNOLOGY

## MORE POWER, PER PANEL

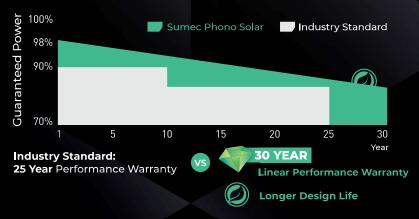

The Diamond Dual Glass solar panel can absorb power from both sides of the panel. In optimal install conditions, **up to 30% additional power yield can be gained** thanks to its Bifacial design.

Reflected sunlight absorbed into back of the panels

## 20% MORE WARRANTED POWER

The enhanced build quality of the Diamond Dual Glass Panel gives us the confidence to warrant its performance for three decades. **A longer lasting panel is the better choice for the environment.** 

OWNED BY FORTUNE 500 GLOBAL COMPANY

IG **30** 

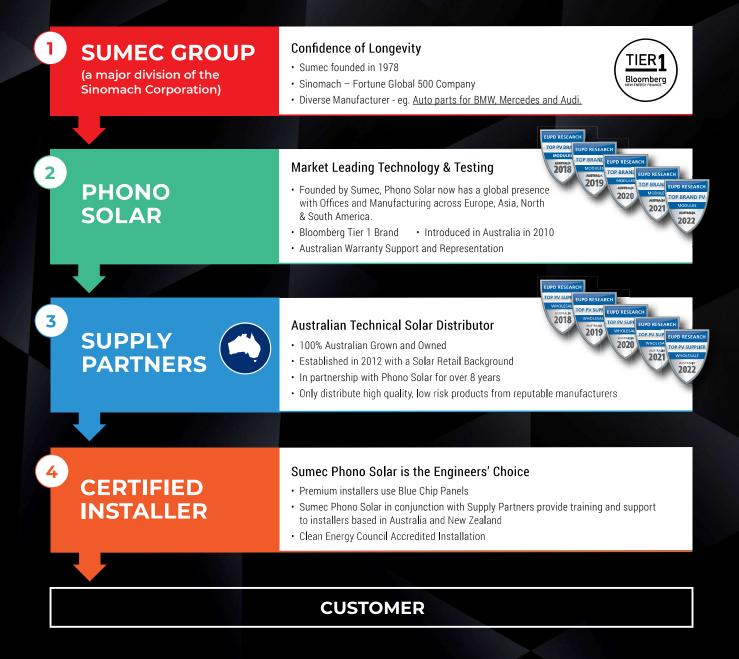

## MAKE A SECURE INVESTMENT

## 4 LAYERS OF PROTECTION

## **In 2013 there were more than 400** Solar Panel Manufacturers approved for install in Australia and **today there are fewer than 100**.

SUMEC Group was founded over 40 years ago so, we understand a warranty is only as strong as the company behind it.

As a **Blue Chip brand**, Sumec Phono Solar has **longevity, commitment and stability** at every layer of protection. From the Fortune 500 Founding Corporation, through to the experienced Australian Distributor, **you can feel secure in your solar investment** for decades to come.

## DIAMOND DUAL GLASS MODULE

#### **ELECTRICAL TYPICAL VALUES**

Model	PS <b>410</b> M8GF-18/VH PS <b>410</b> M8GFH-18/VH	
Testing Condition	STC	NOCT
Rated Power (Pmpp) <sup>2</sup>	410W	303
Rated Current (Impp)	13.25	10.71
Rated Voltage (Vmpp)	30.95	28.30
Short Circuit Current (Isc)	13.95	10.93
Open Circuit Voltage (Voc)	37.09	34.86
Module Efficiency (%)	21.00	

#### **TEMPERATURE CHARACTERISTICS**

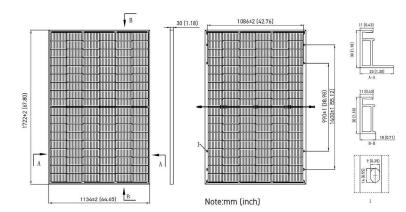

Voltage Temperature	-0.30%/°C
Coefficient Current Temp	+0.05%/°C
Coefficient Power Temp	-0.38%/°C
Power Tolerance	0~+5w
NOCT	45±2-C:
Bifaciality	70±5%

#### **MECHANICAL CHARACTERISTICS**

Cell Type	Monocrystalline 182mm x 91 mm
Dimensions	Length: 1722mm, Width: 1134mm Height: 30mm
Weight	22.0kg
Front/Back Glass	1.6/1.6 Toughened Glass
Frame	Anodised Aluminium Alloy
Cable	4mm <sup>2</sup> (IEC), 1100mm (incl connector)
Junction Box	IP 68 rated
Connectors	EVO2 connector

#### **PACKING CONFIGURATION**

Container	20' GP	40' GP
Pieces per container	216	936

### **BIFACIAL ELECTRICAL VALUES**

Back Power Gain	5%	10%	15%	20%	25%	BNPI
Pmax/W	424	438	453	467	482	445
Module Efficiency	21.7%	22.4%	23.2%	23.9%	24.7%	22.8%
Voc/V	37.09	37.09	37.09	37.09	37.09	37.09
Isc/A	14.43	14.90	15.42	15.89	16.39	15.14
Vmp/V	30.95	30.95	30.95	30.95	30.95	30.95
Imp/A	13.70	14.15	14.64	15.09	15.57	14.38

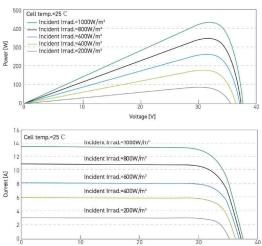

410W BIFACIAL

Additional back power gain will vary according to the ground clearance and surface reflectivity at the installation location. Higher ground clearance and surface albedo will provide better results.

#### **ABSOLUTE MAXIMUM RATING**

Operating Temperature	From -40 to +85°C
Hail Diameter @ 80km/h	Up to 25mm
Front Side Maximum Static Loading	5400Pa
Rear Side Maximum Static Loading	2400Pa
Maximum Series Fuse Rating	30A
PV Module Classification	
Module Rating (IEC 61730)	С
Maximum System Voltage	DC 1000V/1500V

#### **ELECTRICAL CHARACTERISTICS**

Voltage [V]

- 1. In compliance with our warranty terms and conditions.
- Measurement conditions under irradiance level of Standard Test Conditions (STC): Irradiance 1000W/m<sup>2</sup>, AM 1.5, Cell Temperature 25°C.

30-year linear performance warranty to 84.95% at year 30. This amounts to 2% degradation in the first year, 0.45% annually.

\* 25 year Product Warranty applies to Residential System Installations. Commercial System Installations are eligible for 15 year Product Warranty. Please see our warranty document for full terms, conditions and details.
